

7" LABEL TEMPLATE VERSION: 4

PAPER STOCK: 150gsm SILK TRIPLE COATED

COLOUR MODE: CMYK

RESOLUTION: 300DPI

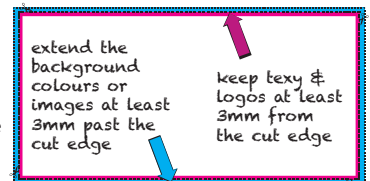

Preparing your artwork correctly is the most important thing you can do to ensure your job runs smoothly.

If you have not prepared artwork correctly we will let you know but this may delay your job.

When preparing artwork with any colour except for solid white you must always allow the background colour or images to spill out into the bleed area.

Keep text and logos at least 3mm inside the cut lines or they may appear to be falling off the label / cover.

Please use only the templates here as other templates or freehand designs may not meet our criteria and could cost you more money and time!

Bleed margins are required for all printed parts in relation to vinyl production.

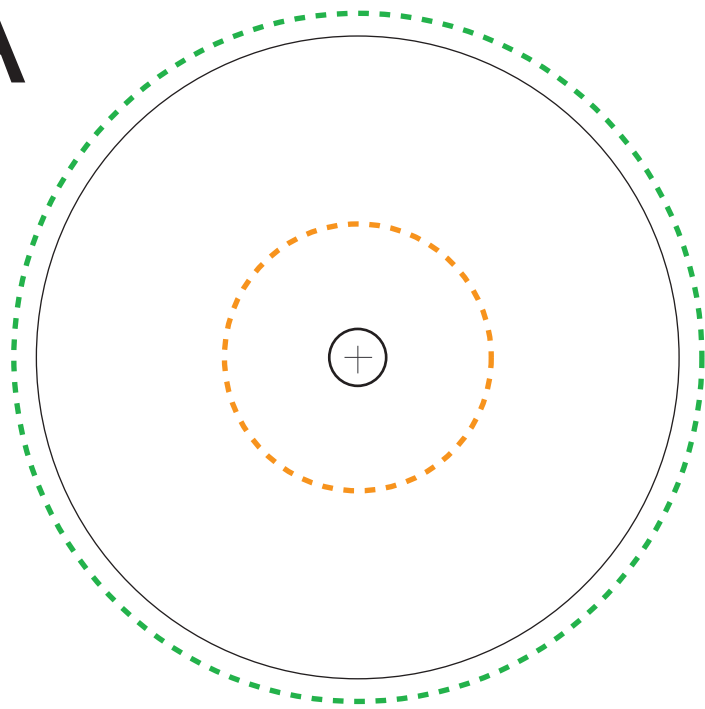

Right
The artwork will print all the way to the edge

Wrong
Artwork will print with white space all around.

PLACE YOUR ARTWORK IN THE TEMPLATE BELOW AFTER READING THE INSTRUCTIONS
